***Dual Enrollment courses are taught by SMCC college certified ACA Instructors on our ACA Campus and subject to availability*

Some courses needed for an Associate's Degree might have to be taken at the SMCC campus during summer breaks or through the ACE program on weekends.

ACA is also offering AP Physics for potential college credit.

Total 14 College Credits

The South Mountain Community College Dual Enrollment Program partners with area high schools to offer credit for academic and occupational classes.

College level courses are held on high school campuses and are taught by high school instructors who have met community college hiring qualifications.

This eases the transition from high school to college, and increase the number of college-bound high school students in the community.

Total possible college credits 47

ACA students can earn an

ASSOCIATE'S DEGREE

while attending High School!

All courses listed are subject to SMCC availability.

All students need to complete SMCC Accuplacer tests to be accepted into College Courses.

Upon the completion of High School, students may earn up to 43 college credits on ACA campus that is

"Quality Education is an Islamic Mandate"

Arizona Cultural Academy & College Prep.
